Hi Erika -

Thank you for the email and sorry I couldn't get you an answer time. Thanks for loading the comment to the docket. It will be processed internally for a short period of time before it is publicly viewable.

I'll work with our docket manager to see if I can add the information so that it is viewable.

Thanks -

Niva

Niva—

FYI, I went ahead and submitted our program's letter to the comment website. I'll be out of the office next week so wanted to get this in—sorry to do so before getting your response.

As you'll see below, the system says that the organization name, representative name **will not** appear on regulations.gov. I'd like to figure out how I can have that information show. Any guidance you can provide for future comment letters would be helpful.

Thanks again!

Agency: Environmental Protection Agency (EPA)

Document Type: Rulemaking

Title: Regulation of Certain Uses under Toxic Substances Control Act: Methylene Chloride and N-Methylpyrrolidone

Document ID: EPA-HQ-OPPT-2016-0231-0001

Comment:

See attached file. In summary: The Local Hazardous Waste Management Program in King County (LHWMP) strongly supports EPA's proposed rule prohibiting manufacture and import, processing, and distribution in commerce of methylene chloride for all consumer and most types of commercial paint removal, and prohibiting commercial use. Thank you for taking much-needed leadership to ban this extremely hazardous material from homes and most businesses across the nation.
